

Accessibility Policy

We are aware you, our users, access the internet in different ways and may have different requirements. Our aim is to make it as quick and easy as possible to access information across our websites (dataclarity.uk.com, clarity365.co.uk, help.clarity365.co.uk & claritycms.uk.com). We have developed our websites to be clear and simple, for everybody to use. If you come across an area within one of our sites that is difficult to use, please tell us about it so we can improve our accessibility. Please **email us any comments** you have about your user experience.

Font Sizes / resizing text

Our websites have been designed to allow you to resize the page text if you want to. This can be done by zooming in and out of the page (Press 'Ctrl' '+' or 'Ctrl' '-'). If you would prefer to view this site with larger text, then change the text size within your browser settings. Instructions for the most popular browsers can be found below:

Google Chrome

Go to Google Chrome and click the top right corner to open the menu:

1. Click 'Settings'
2. Click 'Show advanced settings'
3. Scroll down to 'Web content'
4. Select the 'Font size' and 'Page zoom' you require

Microsoft Edge

Go to the 'Settings' situated in the top right corner of Microsoft Edge. Scroll down to 'Reading' and choose your reading view style and font size from the drop-down options.

Microsoft Internet Explorer

Go to the menu by clicking on the cog wheel. Select 'Zoom' and choose the option which suits you best.

Mozilla Firefox

Go to Mozilla Firefox and click the top right corner. Click the '-' to zoom out or the '+' to zoom in. To change the font, click 'Options' and choose 'Content'.

If your browser is not listed, please refer to the browser developer's website.

Screen resolution and other issues

Our websites have been designed to be viewed in 1024 x 768 screen resolution. To change the screen resolution on Internet Explorer on your computer, open 'Display' properties and click on the 'Settings' option. Draw the sliding 'Desktop Area' scale to 1024 x 768 or higher.

You can download the relevant browser or upgrade the version of your browser by clicking on the appropriate link below:

- **[Download Internet Explorer](#)**
- **[Download Mozilla Firefox](#)**
- **[Download Google Chrome](#)**

This site has some flash content, targeted at Flash Player 8 and above. Text alternatives have been provided in the event that Flash Player has not been installed on your computer. Alternatively you can **[visit the Adobe site and download the latest version of flash player](#)**.

Some of the content available on our website is in PDF format. If you don't have a PDF reader installed on your computer you can **visit the Adobe site and download a free PDF reader**. Otherwise you can request a copy of the relevant report by **contacting Data Clarity**.

Compatibility

You will need Internet Explorer 11.0 (as a minimum) to view our websites and/or to operate our software Clarity365. We do not support any browser versions below this. To download the latest version of Internet Explorer for your PC, **please click here**.
